SUMMARY

Product leader with 5+ years of product management and leadership across streaming media and immersive experiences. Founding Director of Product at Local Public, leading a multi-platform streaming service from inception at Cascade PBS through spinoff into an independent company. Proven track record leading development teams to launch 10+ digital products. MBA graduate with a passion for addressing complex user problems with curiosity and empathy.

EXPERIENCE

Founding Director of Product Local Public · Seattle, WA Jul 2026 – Present

- Lead product for a white-label streaming platform serving 18+ PBS member stations (and growing) across nine platforms (iOS, Android, Apple TV, Fire TV, Android TV, Roku, Samsung Tizen, LG webOS, and web), plus a station-facing CMS and API.
- Guided the platform through its spinoff from Cascade PBS into an independent Public Benefit Corporation, standing up product operations, tooling, and station onboarding from scratch.
- Own end-to-end app store submission and release management for all partner stations across every major app store.

Product Manager, Media and Innovation Cascade PBS · Seattle, WA Aug 2022 – Jun 2026

- Led a six-person team to develop a new, scalable video streaming platform product, serving 10 member stations and hundreds of thousands of users across eight distinct content delivery platforms.
- Spearheaded a new content platform vision focused on local curation, branding, and direct member messaging, oriented toward reenvisioning the role of public stations in a post-broadcast world.
- Drove compliant end-to-end app release processes across all major app stores, with an eye to version management and change implementation.
- Championed new collaboration and quality standards by moving teams to modern tooling (Jira, Confluence, Figma) and by creating an internal bug and feature requests portal.

Product Manager, Immersive Experiences 3 Enrollment Marketing · Remote Sep 2021 – Aug 2022

Promoted from Project Manager, Mar 2022

- Designed and launched 3 immersive product offerings featuring 3D virtual spaces, 360-degree media, and interactive virtual tours. Delivered 20 end-to-end deliverables for 10 higher-education clients.
- Developed 3 new product roadmaps aligned with the organizational mission to expand the product suite and unlock VR and AR product marketing channels, securing buy-in from executive stakeholders.
- Managed end-to-end product development, from ideation to delivery, adapting strategies to clients' goals of personalized, student-focused experiences and generating 150+ qualified leads among hard-to-reach student segments.

Junior Project Manager F. Schumacher & Co. · Remote Apr 2021 – Sep 2021

Promoted from Digital Innovation Intern, Jun 2021

- Led an AR/VR e-commerce initiative and managed web-based product development, coordinating a cross-functional remote team to drive user engagement and sales conversion.

UX Designer (Contract) MUUD Ring · Remote / Los Angeles, CA Oct 2020 – Dec 2020
